## Another Clean Energy Exchange Traded Fund to Launch

*by Bill Baue*

SocialFunds.com -- Following in the footsteps of the three existing exchange traded funds (ETFs) that track indexes comprised of companies fueling the shift to cleaner energy, ....

....

...Index [constituents](#) overlap with those of the three other clean energy oriented indexes (and hence the ETFs tracking them.)

... Index component SunPower ([SPWR](#)) is the top constituent of the WilderHill Clean Energy Index ([ECO](#)), the benchmark for the PowerShares WilderHill Clean Energy Portfolio (PBW--launched in March 2005). ....

....

Showing up third in the top constituents of the WilderHill Progressive Energy Index ([WHPRO](#)), benchmark for the PowerShares WilderHill Progressive Energy Portfolio ([PUW](#)--launched October 2006), is On Semiconductor ([ONNN](#)), ....
